

Welcome To My Love

Nancy Wilson

Welcome to my love
I pray that you to be here
And now at last you're here
So welcome to my love

And welcome to my heart
Where every single beat
It hoped that we would meet
So welcome to my heart

Until there's love, my love
We merely exist
We walk, we move, we breathe
And then we are kissed

And just suddenly there's life
And every month is May
What else is there to say
But welcome to my love
