

Close To Your Head

Naomi Terra

capo II

today is a very special day
it feels like the beginning
of something more

and we are standing on the edge
of all that we've imagined
in lives before

R: keep it up the stars are close to your head now
it's magical times that we live in
keep it up the stars are close to your head now
it's magic i tell you it's happening

my friends there's something in the air
it's not imagination
i see it everywhere
a state impossible to feign
suspendet animation
this hope that we retain

R:

don't be afraid for us
it's not too late for us
to take it make it into something
we can save us

R:

keep it up the stars are close to your head now
it's magical times that we live in
keep it up the stars are close to your head now
it's magic i tell you it's happening

it's magic i tell you it's happening
it's magic i tell you it's happening
