

## Beyond the Pale

## Napalm Death

We stray beyond the pale,  
beyond the failsafe  
Narrow escape, authorised access  
Beyond the pale,  
beyond the failsafe

Looking in from the outside  
Appealing resistance to equality  
As we fall by the wayside  
Producing our offspring  
in captivity

Looking out from the inside  
Assessing wreckage  
from powers that be  
The effects of a landslide  
No financial gain  
to restore poverty

We live behind the rules,  
we are the living proof  
Machines are set in constant  
motion without an indication  
of emotion

The medium creates the wave,  
with the potential to enslave  
We're dominated by the pull and so much easier to rule

Unprecedented need,  
the tools are in demand  
Machines are set in constant  
motion without an indication  
of emotion

Obviously feeding on the plains  
An independent sinister exchange  
Bombarded by a placid  
neutral stance  
Developing without  
a second glance

Beyond the pale

The surface tension  
is venting fast  
Another social violation  
Closing the space on  
the present and past  
We live beyond the pale
