

## Lucid Fairytale

## Napalm Death

Delude yourself with the notion  
That life's viewed defiantly through your eye  
Subconsciously following the flock  
From which appearance is the only exemption

The stagnant illusion of change  
Concealed behind your disguise

What's perspicuous on the surface  
Is artificial inside  
When views are merely symbolic  
Of an image you hide behind

The stagnant illusion of change  
Concealed behind your disguise
