

## Mind Snare

## Napalm Death

Reasoning poison in the vein  
Chasing the dragon who's frying your brain  
The shit that once gave you the high  
Now controls your escape from proverbial cloud nine  
Sad dependancy - Brainfried society

Mindsnare

All essence of being in turmoil  
Your white powder god brings life to the boil  
Forget all you family and friends  
Heroin becomes guardian till the end

Jack-up

Its powers of deception  
Seems to null all daily strain  
But just another fix  
Grip on reality fades out day by day
