

## Scum

## Napalm Death

In your mind  
Nothing but fear  
You can't face life  
Or believe death's near

A vision of life  
On television screens  
An existence created  
From empty dreams

Hide behind T.V.  
Hide behind life  
You should be living  
But you only survive

Life holds nothing  
But pain and death  
Don't look for love  
There is none left
