

## Stronger Than Me

Nashville Cast

Oh, here I go again  
walking the line  
killing time between my sins  
Oh, why do I come here  
The ending's still the same  
I'm bringing back old tears  
I act like I don't know  
Where this road will go

Pour me something stronger  
Pour me something straight  
All these crooked voices, make them go away  
I can barely stand up  
I can hardly breathe  
Pour me something stronger than me  
Pour me something stronger than me

Sunrise hurts as much as you  
You both come when I don't want you to  
Oh, I – can still hear you say  
That you and I would both be better off this way  
These things that I run to  
What I put my heart through

Pour me something stronger  
Pour me something straight  
All these crooked voices, make them go away  
I can barely stand up  
I can hardly breathe  
Pour me something stronger than me
