

# Why Can't I Say Goodnight

Nashville Cast

It's almost sunrise  
Hours and hours gone by  
Candles are burned down  
Turned into morning light

The time to go has come and gone  
Why can't I...?  
Why can't I say goodnight?

The whole world is sleeping  
and still I can't give in.  
It's a love story  
I never want to end.

The time to go has come and gone...  
Why can't I...?  
Why can't I say goodnight?

I'm using up all my strength,  
I can't tear myself away...  
It only gets harder as night turns to day.

There isn't one place  
Honey, that i'd rather be  
than right here in your arms  
With your head layin' on me.

The time to go has come and gone  
Why can't I...?  
Why can't I say goodnight?  
Darlin, why can't I say goodnight?
