

Why Can't I Say Goodnight

Nashville Cast

It's almost sunrise
Hours and hours gone by
Candles are burned down
Turned into morning light

The time to go has come and gone
Why can't I...?
Why can't I say goodnight?

The whole world is sleeping
and still I can't give in.
It's a love story
I never want to end.

The time to go has come and gone...
Why can't I...?
Why can't I say goodnight?

I'm using up all my strength,
I can't tear myself away...
It only gets harder as night turns to day.

There isn't one place
Honey, that i'd rather be
than right here in your arms
With your head layin' on me.

The time to go has come and gone
Why can't I...?
Why can't I say goodnight?
Darlin, why can't I say goodnight?
