## **Crazy Love**

Looking from the outside, remember thing from when we met They can say what they want but they don't know what we had We might be a little different cuz we don't love any advice Either all the difference cuz that's just does Cuz when we fight we fight and when we kiss, we kiss And we get everthing we got and get better then this I need this feeling, crazy love Up on the ceiling crazy love I would be crazy t give it up Cuz it's crazy love, When I try to be perfect we don't care if a clue Baby lets make this working Even if we go fool I will jump off a mountain if you said we could fly No matter how crazy are things, now baby will survive Cuz when we fight we fight and when we kiss, we kiss And we get everthing we got and get better then this I need this feeling, crazy love Up on the ceiling crazy love I would be crazy t give it up Cuz it's crazy love, crazy love, crazy love, crazy love Losing our minds, I need this feeling, crazy love Up on the ceiling crazy love I would be crazy t give it up Cuz it's crazy love, I need this feeling, crazy love Up on the ceiling crazy love I would be crazy t give it up Cuz it's crazy love, crazy love, crazy love, crazy love
