

# Empty Apartment

Nasri

Every single box is another memory  
Every single thought has a lock without a key  
Pictures on the wall now they pallin on the floor  
But I can still see her

Walking throw the room I remember all the nights  
If you heard a noise you will know that was a fight  
But if you took a look you will see it in my eyes  
That I love that girl

Is over, she's sure  
I watch her, she took everything  
I can't stay here anymore  
Is my? just an empty apartment

Now that she's gone it's just an empty apartment  
We use to come home, it's just an empty apartment  
Just an empty apartment

Remembering the days when we didn't have a bed  
Sleeping on the floor, we could barely?  
She never complain she just safe her bedroom safe  
Til I got on my feet

Life is moving fast, I was caught up in the high  
She couldn't believe that a party will remain  
Use to be just us not affected by the?  
I killed that dream

Is over, she's sure  
I watch her, she took everything  
I can't stay here anymore  
Is my? just an empty apartment
