It's Me Again

Nasri

You saw me
I heard you
Right from the start
I open
You stole it
The breath from my heart
Nights turn into days
And nothing fades the way I feel about you
I would never let us fall apart
It's me again

Just like it was yesterday
Tomorrow will be the same
You'll never have to wonder
It's me again
Giving you everything
From now until the ocean turns to sand
It's me again

I know you
You're safe here
Just where you are
My love
Can't fight this
Cause we're timeless
And we'll out last the start
Nights turn into days
And nothing fades the way I feel about you
I would never let us fall apart
Cause it's me again

Just like it was yesterday
Tomorrow will be the same
You'll never have to wonder
It's me again
Giving you everything
From now until the ocean turns to sand
It's me again

I could spend a whole lifetime
Over and over
Still wouldn't be enough
I will fall
For you again
And again
And again

It's me again
Just like it was yesterday
Tomorrow will be the same
You'll never have to wonder
It's me again
Giving you everything
From now until the ocean turns to sand
It's me again
