

Love Like You Do

Nasri

We're out of time
Like it was stolen
My heart is blind
So out of focus
I don't know what else to feel
This should be enough to make it real
I see the water and you see the ocean
Why am I drowning when you're right next to me
I don't know what else to feel
Maybe it's too late for me and you

I don't know where to lie like you do
I don't know where you notice me and you
I wish I could just wake up and know that it's true
Cause singing if I could only be in love with you

You want the world
I want the moment
You seem so sure
And I'm still hoping
Yeah, I can't keep up with your heart, now
Why do I have to make it so hard

I don't know where to lie like you do
I don't know where you notice me and you
I wish I could just wake up and know that it's true
Cause singing if I could only be in love with you

Tell me how do you know I'm the one
Tell me how you just never gave up on us
Tell me how did you do it
Cause I wanna love like you do
Help me
Help me baby
Understand

I don't know where to lie like you do
I don't know where you notice me and you
I wish I could just wake up and know that it's true
Cause singing if I could only be in love with you
I just wanna love you like you love me back
I just wanna love you like you love me back
I just wanna love you like you love me back
I just wanna love you like you love me back
