

# Party Rite Girl

Nasri

(Verse)

Little mami's not my girlfriend  
She doesn't know me at all  
We don't have a relationship outside of the spot  
Meet at the liquid kitchen  
Before we head to the room  
It's almost like tradition  
How quick little fixin we cut

(Pre-Chorus)

We don't come together,  
We don't leave together  
We catch the peak together

(Chorus)

She's my party rite girl  
Throwin up her hands like  
Dancing with the back side  
Man that booty's so fine  
My party rite girl  
Showin up that neck like  
Leavin at the sunrise  
She can do it all night  
She's my party rite girl  
On another level  
Only I could let go  
Baby's got some strong thighs  
My party rite girl  
Uh this girl is so fly  
Reason that I stopped by  
Look at my shorts  
She's my party rite girl

(Verse)

Little mami's not my girlfriend  
But we've been kissing a lot  
A little tonsil surfin  
We get each other so hot  
We don't see anybody  
My friends get lost in the mix  
Sometimes we get so rowdy  
They just don't know what it is

(Pre-Chorus)
