

## Blind World

Nasum

I live in my own world, me and my family  
To things that happens in the third world  
I turn my back

Why be so fucking trapped in yourself  
Stand up and say no to the bad things in life

I don't see anything!

If we could open our eyes and see how it is  
Instead of running away from the truth

I live in my own world, me and my family  
To things that happens in the third world  
I turn my back

Why be so fucking trapped in yourself  
Stand up and say no to the bad things in life

I don't see anything!

If we could open our eyes and see how it is  
Instead of running away from the truth

I live in my own world, me and my family  
To things that happens in the third world  
I turn my back

Why be so fucking trapped in yourself  
Stand up and say no to the bad things in life

I don't see anything!

If we could open our eyes and see how it is  
Instead of running away from the truth
