Darkness Falls

Nasum

- It came alive in the wreckage
 It broke all shackles ever forged
 It came so close to the carnage
 It carried out remains through the visions
 of silence, starvation and subjugations
- To bring us back to life To unveil the dark
- It fought for us in the battles
 It overpowered every evil force
 It gave us strength when it mattered
 It showed the way through the divisions
 of hatred, damnation and subterfuge

To make us whole again To unveil the dark

When darkness falls the earth will quake Through the cracks we'll see the light When darkness falls we must awake We can't give up, we have to fight
