

# Detonator

Nasum

Minesweep my soul  
Ready to blow  
Looks like it's time to give in

My fuses blown  
Beaten and torn  
Over the edge, now it begins

You were my detonator  
Two as one  
Falling down  
Descending into the unknown

Shut your eyes  
Look inside  
Shocked - but it's too late to leave

Scream for revenge  
Foaming with rage  
Too late for all apologies

You were my detonator  
Two as one  
Falling down  
Descending into the unknown

Broken hope in succession of  
Broken words I had put my faith in you  
Stolen truth, so shocked by you  
Stolen truth, deception in the extreme

You were my detonator  
Two as one  
Falling down  
Descending into the unknown
