## **Evacuate The Earth**

Evacuate the earth! What else can we do? Evacuate the earth! Time is running short... No time for repentance, no time for regret just leave this forsaken ground The dream about the utopia is just an inversion of the truth

Succumb - the horror, invoke - the end

Evacuate the earth! End all while you can Evacuate the earth! Do not postpone your fate Leave all the chaos, leave all the turmoil leave this carcass called earth When all hope is lost, close your eyes and fall into the illusion

Succumb - the horror, invoke
