

# The Rest Is Over

Nasum

The rest is over, the recess is done, it's time to act  
You've been indulgent for far too long and it's time to act

You must get out of this  
You can't go on like this

Embullient and enthusiastic you take the first step  
Exit the hibernation - enter the world of possibilities

You must get out of this  
You can't go on like this
