

## Understand: You Are Deluded

Nasum

You feed yourself with death  
I can still smell the stench on your breath  
You claim that it's the right way  
I say it's just a fucking lie, like everything you say

You think it's different here  
You think we're not that cruel  
You think they feel less pain  
I think you're a fucking fool

See the blood, feel the pain  
See the life of an animal going down the drain  
See the terror in their eyes  
Now how can you say that their death was dignified?

You think it's different here  
You think we're not that cruel  
You think they feel less pain  
I think you're a fucking fool
