

# All Over the World

Nat King Cole

All over the world  
All over the world

Love is the thing  
It's the one thing, you'll see  
All that it takes  
Is a he and a she

All over the world  
All over the world

Love was and love is  
And always will be  
All over the world

(Whether you're in  
Maine or California  
Doesn't matter, I know  
You can be in Tennessee or  
You can be in old Mexico)

(It can happen  
Summer, spring or fall or  
When the winter winds blow  
Love is a wonderful thing)

Lovers can be found  
In foggy London town  
In Rome or Peru

Even in Damascus  
Lovers never ask us  
What they should do

You don't have to park  
In Paris after dark  
To know that it's true  
Love is a wonderful thing

All over the world  
All over the world

Love was and love is  
And always will be  
All over the world  
All over the world
