

(I Would Do) Anything For You

Nat King Cole

I swim the ocean wide
I would cross that great divide
I would do anything for you

I would take the trip to Mars
I would even count the stars,
I would do anything for you
I'd gladly give a fortune just to see you smile
And hear you say I love you every little while.
In my heart that's ecstasy,
Long as you have faith in me
I would do anything for you
I swim the ocean wide
I would cross that great divide
I would take the trip to Mars
I would even count the stars,
I'd gladly give a fortune just to see you smile
And hear you say I love you every little while.
In my heart that's ecstasy,
Long as you have faith in me
I would do anything for you
Yes I would do anything for you.
