

# My Kinda Love

Nat King Cole

My kinda love, your kinda love  
Keeps me believing, although you're deceiving  
My kinda love, one way to paradise

My kinda lips, your kinda lips  
When love comes stealing, encourage that feeling  
My kinda love, one way to paradise

Although you're happy today  
You may be gone tomorrow  
Love comes but once, don't be a dunce  
When you need it, steal it, beg or borrow

I'm fond of you, you're fond of me  
Tell me you love me and hug me and squeeze me  
My kinda love, one way to paradise

Although you're happy today  
You may be gone tomorrow  
Love comes but once, don't be a dunce  
When you need it, beg or steal or borrow

I'm fond of you, you're fond of me  
Tell me you love me and hug me and squeeze me  
My kinda love, one way to paradise
