

Something Makes Me Want to Dance With You

Nat King Cole

Something makes me want to dance with you at a dance affair
And so I dare say, would you care to dance?
Something tells me there's a change with you, something in the
air
It's everywhere each time we share a dance

Let me lead you in a rhythm that's great
Now you're getting with me; that's great
When we take the floor
I will just adore
Making an advance

And dancing something makes me want to dance with you; lady, I'
ll be there
To do my share in case you care to dance

Let me lead you in a rhythm that's great
Now you're getting with me; that's great
When we take the floor
I will just adore
Making an advance

And dancing something makes me want to dance with you; lady, I'
ll be there
To do my share in case you care to dance
You're taking quite a chance
Perhaps you'll find romance
Would you care to dance?
