

## When You Walked By

Nat King Cole

I look when you walk by  
There goes the one for me, said I  
How strange it seems, meeting the dream I dreamed  
Something that fate had schemed for a lonely guy

When you walked by, I knew  
All of my life, I'd follow you, so, here I'll be  
Better get used to me and you may agree with a sigh  
It was love when you walked by

And you may agree with a sigh  
It was love when you walked by
