

# World of No Return

Nat King Cole

Yes, you keep asking for it  
And there comes a time when you find yourself falling back on y  
our dreams  
And in your dreams, there's always a girl  
A very special girl  
And if by some miracle she should become a reality  
You know that [?] no going back

I reach for you and I touch the sky  
I kiss your lips and a star goes by  
And when I hold you it's all clear  
I am in heaven when you are near

You are an angel, what can I do?  
I'll never leave you my whole life through  
I'm in a world of no return  
And there's no return from you

I'm in a world of no return  
And there's no return from you
