

# I Wanna Know

Natalia Kukulska

You're making be better  
you're making me stronger  
I feel so important  
a queen to your king

you're taking me higher  
you're making me wiser  
and it doesn't matter  
what tomorrow will bring

and I just want you to know  
that you're deep in my soul  
every minute hour all the time  
I can't imagine how my life would be  
without you by my side  
there is nothing around  
if you left me I would surely die  
without you I am no one

I wanna know  
I wanna know  
what a great feeling  
you and I can be together as one

I'm ready to love you  
I'm ready to share it  
you're taking me places  
where I've never been

you're making me braver  
you're taking me further  
and showing me marvels  
that I've never seen
