

Never Loved

Natalia Kukulska

1.

now when you're gone
I look through my memory
still hear your voice
you are very close to me

2.

I love those days
and I wanna have them back
forget we're sad
let our hearts remember that

pre chorus

still we're having fun
sharing lovely times
I'll forget what's wrong 'cause I

chorus

I never loved that much
until I found you
It doesn't matter why I do
you're the only reason why
I love you

3.

I'm gonna wait
there will be for us a better day
I have the faith
and it's easy to imagine future when

pre chorus

still we're having fun
sharing lovely times
there is so much hope for us

bridge

even you're gone
it is never too late
to realize
that it is destiny
I'll be passion
'cause I know
