

# Arabesque

Natalia Lesz

I can walk on air  
And make it look so easy  
But you're unaware  
I am defying gravity

It's a sad duet  
I can't get free of it  
In this pirouette  
The steps are dancing me

So now

This is my last arabesque  
I can't hold on  
I did my best  
I can't perform for your applause  
Or be someone I never was  
Soft good  
But holding my breath  
This is my last arabesque

It's all smoke and mirrors  
And pulling back my hair  
It's all held so tight  
That I am not really there

This is not my show  
Even though it pleases you  
So let the curtains close  
There is nothing left to do

So now

This is my last arabesque  
I can't hold on  
I did my best  
I can't perform for your applause  
Or be someone I never was  
Soft good  
But holding my breath  
This is my last arabesque
