

I was Born

Natalia

Now I've come back
To do it again
this is who I wanna be
with a clean slate
living the new
there ain't nothing wrong with me
as far as I see it

I was born
to do this thing
I was born
to do this thing
don't know wath the future brings

the sun is shining inside my head
I found the strength to believe
music showed me the way to be
and now
I fall on my feet

got a new band
slamming tunes
turn me loose I'll play this game
I'm gonna prove it
music's hard wired in my brain
all my life I've felt this way

but I never knew it
I was born
to do this thing
I was born
to do this thing
don't know wath the future brings

the sun is shining inside my head
I found the strength to believe
music showed me the way to be
and now
I fall on my feet

I realize I'm a creature of habit
I know it's there gonna reach out and grab it
deep down inside it's the path that I fallow
I'm lighting the way for the dream of
tomorrow
