

# Let It Ride

Natalia

What good is it to bitch and moan about it now  
It was you who said that you want me back  
Don't twist the knife, its just self-afflicted pain  
You've always known my heart's a beaten track

You can't expect me to wear blindfolds from now on  
God made boys for his girls and made them for playing  
Don't mean to hurt you when I look at other guys  
I don't trust their love or a word they are saying

Let it ride  
Don't blow in the fire  
If you're pushing  
If you're shoving  
Why should I wanna be with you?  
Let it slide  
You walk on a wire  
No one's ever loved you more than I do

Don't lock me in or I'll be burning down the house  
The more you hold me, the faster I'll run  
Your crazy jealousy is slowly killing me  
What's wrong with going out and having fun?

A girl has got to know just how far she can go  
Never hurt a soul, what's so bad about looking  
I'm only hanging out to whet my appetite  
Home in time to see if my baby is cooking

Let it ride  
Don't blow in the fire  
If you're pushing  
If you're shoving  
Why should I wanna be with you?  
Let it slide  
You walk on a wire  
No one's ever loved you more than I do

This game is harmless, 'cause my heart belongs to you  
No other guy really turns me on  
Just ease up, baby, 'cause you're coming on too strong  
Step back, let go, be good or I'll be gone

Let it ride  
Don't blow in the fire  
If you're pushing  
If you're shoving  
Why should I wanna be with you?  
Let it slide  
You walk on a wire  
No one's ever loved you more than I do

Let it ride  
Don't blow in the fire  
If you're pushing  
If you're shoving  
Why should I wanna be with you?

Let it slide  
You walk on a wire  
No one's ever loved you more than I do
