

# We're Gonna Have A Party

Natalia

It's Friday afternoon  
I'm at work and it's the end of the week  
Going out with my girls tonight  
I can hardly wait to hit the scene  
Grab my keys, take my coat, I'm out the door  
Worked hard, all week, ready to hit the dance floor  
We're gonna party, party  
Party till the break of day  
And there's nothing or no one to stand in the way  
We're gonna have us a good time  
Dancin' till the morning light  
Me and my girls are going out tonight  
Finally make it home  
Take a shower, grab a bite to eat  
Then I call my girls on the telephone  
Hello, what time are we gonna meet?  
Got my hair done, and my nails done  
Gonna have a good time  
High heels, new dress  
Leave all my worries behind  
We're gonna party, party  
Party till the break of day  
And there's nothing or no one to stand in the way  
We're gonna have us a good time  
Dancing till the morning light  
We're going out tonight  
Rollin' up in a limousine  
People dressed up like it's New Year's Eve  
DJ playing my favourite song  
On the dancefloor lighting up the scene  
Hands up, like what  
It's getting hot up in here  
Roll it to the left, rock it to the right  
Get your groove on tonight  
We're gonna party, party  
Party till the break of day  
And there's nothing or no one to stand in the way  
We're gonna have us a good time  
Dancing till the morning light  
Me and my girls are going out tonight
