

# Someday Soon

Natalie Bassingthwaighte

Someday soon you're gonna catch that dream you've been chasing  
Someday Soon  
Someday Soon  
Someday Soon  
Someday Soon

Out there in the air tonight  
It's electric, it's alive  
Suddenly you can see right before your eyes  
A thousand candles burning bright

Someday soon  
You're gonna catch that dream you've been chasing  
Someday soon  
They're gonna write your name in the sky  
All you need is just to believe it  
You know you're my hero  
You're gonna be a star tonight

Inside feel your heart ignite  
It's your time to arrive  
Suddenly you can see that it's possible  
And I'll be right here by your side

Someday soon  
You're gonna catch that dream you've been chasing  
Someday soon  
They're gonna write your name in the sky  
All you need is just to believe it  
You know you're my hero  
You're gonna be a star tonight

Take a step  
One moment  
Closer to the magic  
It's just one heartbeat away  
Don't give up  
Embrace it  
Breathe it in  
Believe it  
You know the way

Someday soon  
You're gonna catch that dream you've been chasing, yeah  
Someday soon  
They're gonna write your name in the sky  
All you need is just to believe it  
You know you're my hero  
You're gonna be a star tonight

Someday soon  
You're gonna catch that dream you've been chasing  
Someday soon  
They're gonna write your name in the sky  
All you need is just to believe it  
You know you're my hero  
You're gonna be a star tonight
