

## His Eyes, Her eyes

Natalie Cole

His eyes, her eyes  
Warm and quiet lovers  
Gazing, drowning  
Lost in what they see  
His words, her words  
Strangely unrevealing  
Question, answer  
Careful as can be

What they say with their eyes  
How they give themselves away with their eyes  
They betray with their eyes  
Everything they are

Is it just in a kiss  
That their fences turn to dust in a kiss  
Ooh they must in a kiss  
Promise their tomorrows

His move, her move  
Is it now or never  
Heaven, Eden  
Could be theirs forever

For his eyes and her eyes  
Are yours and mine
