

Love Letter

Natalie Cole

Sittin' in front of your house, light rain in early dawn
Workin' on a love letter with the radio on
Got my eye on your window pane and I smoked a lot of cigarettes
Mercy, mercy but love is strange, and you haven't even kissed me yet

We come to push, push comes to shove
Shove comes to touch, touch will come to love

Workin' on a love letter, listenin' to a love song
I'm writing you a love letter, love letter, with the radio on (radio, radio)

Hope you get the message baby, I know that you're gonna let me in
It's weird in your neighborhood, if this is war then I'm gonna win

We come to push, push comes to shove
Shove comes to touch, touch will come to love
Love don't sit waitin', love don't behave
Love's waiting in the car, in the pouring rain now

Workin' on a love letter, listenin' to a love song
I'm writing you a love letter, love letter, got the radio on (radio, radio)

We come to push, push comes to shove
Shove comes to touch, touch has come to love

Workin' on a love letter, listenin' to a love song
I'm writing you a love letter, love letter, got the radio on (radio, radio)
Workin' on a love letter, listenin' to a love song
I'm writing you a love letter, love letter, got the radio on (radio, radio)
