## **Love Letter**

**Natalie Cole** 

Sittin' in front of your house, light rain in early dawn Workin' on a love letter with the radio on Got my eye on your window pane and I smoked a lot of cigarettes Mercy, mercy but love is strange, and you haven't even kissed m e yet

We come to push, push comes to shove Shove comes to touch, touch will come to love

Workin' on a love letter, listenin' to a love song I'm writing you a love letter, love letter, with the radio on ( radio, radio)

Hope you get the message baby, I know that you're gonna let me in It's weird in your neighborhood, if this is war then I'm gonna win

We come to push, push comes to shove Shove comes to touch, touch will come to love Love don't sit waitin', love don't behave Love's waiting in the car, in the pouring rain now

Workin' on a love letter, listenin' to a love song I'm writing you a love letter, love letter, got the radio on (r adio, radio)

We come to push, push comes to shove Shove comes to touch, touch has come to love

Workin' on a love letter, listenin' to a love song I'm writing you a love letter, love letter, got the radio on (r adio, radio) Workin' on a love letter, listenin' to a love song I'm writing you a love letter, love letter, got the radio on (r adio, radio)
