

Tell Me All About It

Natalie Cole

Love, when we touch I shiver
Just body language can you blame it
My love's like a raging river
And I think you're the one to tame it
You
You're the quiet shy type
You always whisper, never shout it
Ooh
Baby you are my type
Why don't you tell me all about it
I got ways to make you
Make you tell me all about it
That's what I'm gonna do
Till you tell me all about it
Making love till you do
Till you tell me all about it
Me
I'm a lousy loner
Just call my number come be near me
Me
I'm a soulful moaner
Stay chez moi so you can hear me
You
You're the quiet shy type
You always whisper never shout it
Ooh
Baby you are my type
Why don't you tell me all about it
I got ways to make you
Make you tell me all about it
That's what I'm gonna do
Till you tell me all about it
Making love till you do
Till you tell me all about it
