Another Day

Natalie Grant

Been driving through the night I pull up and see the lights This is the place that I call home I watch you as you sleep Think of all you mean to me

Touch your face Kiss you softly Before I go to sleep pray under the stars Search my soul and check my heart And thank god for

Another day Another chance to love the ones I love To find my way To laugh, to dance Watch the sun come up Another day I get to live As if Every breath could be the last I take I get another day

I've got a hand that I can hold Someone who knows my soul A safe place to lay my head at night So why do I forget How much I've been blessed in life Forget what means the most to me

As I'm waking up I feel my beating heart So grateful that I've come this far And thank god for

To make somebody smile Go the extra mile Take a wrong and make it right And try to touch somebody's life

I get another day....
