

# Burn Bright

Natalie Grant

Lately I don't recognize you  
The fire in your eyes is fading into embers  
So while you're out there in the darkness  
I'm praying you'll remember

You were made to shine  
You were made for life  
Even if you've lost your way  
Turn and you will hear love say  
You were made for more  
So much more  
Child of everlasting light  
Made to blaze away the night  
So baby, burn bright  
Burn bright

You can rise up from the ashes  
Make something beautiful  
Of all the broken pieces  
And I'm believing you'll come running  
Into the arms of Jesus

You were made to shine  
You were made for life  
Even if you've lost your way  
Turn and you will hear love say  
You were made for more  
So much more  
Child of everlasting light  
Made to blaze away the night  
So baby, burn bright  
Burn bright

There will always be somebody in the dark  
Ready to rain down on your last spark  
Trying to blow out your flame again  
They will do it if you let them  
Oh, so don't you let them

You were made to shine  
You were made for life  
Even if you've lost your way  
Turn and you will hear love say  
You were made for more  
So much more  
Child of everlasting light  
Made to blaze away the night  
So baby, burn bright  
Burn bright

Yeah  
Burn bright  
Yeah  
Burn bright

I'm believing you'll come running  
Into the arms of Jesus
