

# Let Go

Natalie Grant

Changing,  
Everywhere I am  
I been stuck in a rut, I been caught up  
Yeah, it happens fast  
Moving,  
To where I wanna begin  
I wanna find new life and see new eyes  
And breathe again  
(I'm gonna) stop now, take a breath  
It's all so crazy

But I'm ready to let go  
Looking forward to don't know  
Forget about yesterday, get away  
And live in the right now  
Yeah, I'm ready to let go  
And I'm ready follow  
Anywhere the road bends  
Where it ends I don't know  
So let go

Oh, we live in the future  
We got our regrets  
Cause we don't live in  
The present tense  
(It's) hectic in my mind  
(Gonna) leave it behind

But I'm ready to let go  
Looking forward to don't know  
Forget about yesterday, get away  
And live in the right now  
Yeah, I'm ready to let go  
And I'm ready follow  
Anywhere the road bends  
Where it ends I don't know  
So let go

Don't wanna over think it  
Don't worry so much  
Gonna live this life  
And not lose touch  
I'm gonna let go

But I'm ready to let go  
Looking forward to don't know  
Forget about yesterday, get away  
And live in the right now  
Yeah, I'm ready to let go  
And I'm ready follow  
Anywhere the road bends  
Where it ends I don't know  
So let go
