

# Make It Matter

Natalie Grant

Pack my bags and my regrets  
Every second that I've wasted  
Chasing after  
My pursuit of happiness  
Has only left me searching  
There must be more

Take my life and lift me up to the sky  
Take my dreams and help me to fly  
On the wings of possibility  
Come rewrite my history  
(till it's) only you I'm chasing after  
Take this life and make it matter

Help me give more than I take  
Let me see into somebody else's heartache  
And be the difference love can make  
My heart is finally finding  
That there is more

Only one life to live  
Only one love to give  
Only one life, only one love  
So make it, make it matter

Take my life and lift me up to the sky  
Take my dreams and help me to fly  
On the wings of possibility  
Come rewrite my history  
(till it's) only you I'm chasing after  
Take this life and make it matter
