

# There Is A God

Natalie Grant

For as long as I remember  
Ever since I was a child  
I've had the understanding in my heart  
That there is a Creator, a Master of design  
Who hung the moon and every single star

But the greatest revelation that I could ever know  
He loves me in my weakness  
And calls me His own

I have a hope, and I believe  
My faith is alive, my spirit is free  
Though He's unseen, still I know deep within my soul  
There is a God

In the arms of human nature  
I've fallen on the way  
He's heard the desperation of my cry  
Oh, one drink of living water, can heal the hurt inside  
He fills my cup, it never will run dry

For the price of my redemption is covered by the blood  
And I have been made worthy  
By His gift of love

Father of Light  
He never changes, He never fails  
Giver of grace, author of life  
He paid the price, so I can say

I have a hope, and I believe  
My faith is alive, He's living in me  
There is a God  
I do believe, I do believe

There is a God  
He's the way, the truth, the life  
There is a God  
His name is Jesus
