## Waiting For A Prayer

**Natalie Grant** 

He's given hope through the ages Give sight to the blind Brought understanding to sages And peace to troubled minds To humble hearts, who will call His name To all who will believe

He's watching with angels, He's ready to fly One word, just a whisper, He's there Knock and He'll open, seek and you'll find Call on His name, He's the answer Waiting for a prayer

He'll give you faith like a fire To keep your feet on the path And if it's mercy you require He'll be the touch of Healing Hands To humble hearts, who will call His name To all who will believe

He's watching with angels, He's ready to fly One word, just a whisper, He's there Knock and He'll open, seek and you'll find Call on His name, He's the answer Waiting for a prayer

Fall on your knees and believe The Father hears you when you pray Anytime, night or day And He will say

I'm watching with angels, I'm ready to fly One word, just a whisper, I'll be there Knock and He'll open, seek and you'll find Call on His name, He's the answer Waiting for a prayer
