## We Are All The Same

**Natalie Grant** 

My life is filled with joy and tears Just like somebody, ten thousand miles from here We stand, a half a world apart Looking up at the same stars

We're the fellowship of the unashamed Children in our Savior's eyes Praying for God's touch To guide us through our different lives

'Cause everybody needs His perfect love Just like every flower needs the rain Reminding us, the whole world over We are all the same And God is reaching out His hand to us As all across the earth we call His name Reminding us, the whole world over Deep at heart, we are all the same

His love has opened up our eyes Closing the distance, between our different lives And His grace fills every step we take As we walk on in faith

No matter who or where we are He will be our common ground Take all the walls we build And bring them crashing down

'Cause everybody needs His perfect love Just like every flower needs the rain Reminding us, the whole world over We are all the same And God is reaching out His hand to us As all across the earth we call His name Reminding us, the whole world over Deep at heart, we are all the same

So, let us thank for His love we've come to know We know we will never face this world alone

'Cause everybody needs His perfect love Just like every flower needs the rain Reminding us, the whole world over We are all the same And God is reaching out His hand to us As all across the earth we call His name Reminding us, the whole world over Deep at heart, we are all the same
