

When You Walked Into My Life

Natalie Grant

I waited all this time
Count minutes as they pass
Searching for a sign
Wishing for the best
And just when I thought my chances was gone
You came to me with open arms

Like a miracle out of the blue
You rescue me when I turn to you
You shook the heaven and cracked the skies
When you walked, when you walked into my life

When you appeared

Like sight to the blind
Like music to my ears
like a reason to a rhyme
Just when my hope was weary thin
You turn my heart to love again

like a miracle out of the blue
You rescue me when I turn to you
You shook the heaven and cracked the skies
When you walked, when you walked into my life

You spoke my name and the word began again
You touch my heart and it open
