

When I say it doesn't matter
It matters most of all
You're not up for conversation
So I'm blinded by it all

The further away you push me
The closer I feel to you

Every fall every crash
Everything that was never meant to be
All the perfect little things I could release
All the nights every time we were just about to leave
Now it makes no sense to me
But it seems when we fall that's when we land perfectly

Can't see what's before me
Cannot feel the ground
This place that we exist in
Is the sweetest thing I found

The further away you push me
The closer I feel to you

Every fall every crash
Everything that was never meant to be
All the perfect little things I could release
All the nights every time we were just about to leave
Now it makes no sense to me
But it seems when we fall that's when we land perfectly

The further away you push me
The closer I feel to you

Every fall every crash
Everything that was never meant to be
All the perfect little things I could release
All the nights every time we were just about to leave
Now it makes no sense to me
But it seems when we fall that's when we land perfectly

Perfectly
Perfectly
