Natalie Imbruglia

When I say it doesn't matter  
It matters most of all  
You're not up for conversation  
So I'm blinded by it all

The further away you push me  
The closer I feel to you

Every fall every crash  
Everything that was never meant to be  
All the perfect little things I could release  
All the nights every time we were just about to leave  
Now it makes no sense to me  
But it seems when we fall that's when we land perfectly

Can't see what's before me  
Cannot feel the ground  
This place that we exist in  
Is the sweetest thing I found

The further away you push me  
The closer I feel to you

Every fall every crash  
Everything that was never meant to be  
All the perfect little things I could release  
All the nights every time we were just about to leave  
Now it makes no sense to me  
But it seems when we fall that's when we land perfectly

The further away you push me  
The closer I feel to you

Every fall every crash  
Everything that was never meant to be  
All the perfect little things I could release  
All the nights every time we were just about to leave  
Now it makes no sense to me  
But it seems when we fall that's when we land perfectly
