

# When You're Sleeping

Natalie Imbruglia

The sun came up  
Desperate, desperate  
The stars above  
Held you back  
Once again

Half way here  
Half way here they whisper

You talk so much sense  
When you're sleeping  
When you're sleeping

And you share all the secrets  
And the mystery  
When you're sleeping

I saw your tears  
Violet, violet  
And it's been years  
The sky's been crying for you  
I found out  
Beautiful things about you  
You talked so much sense  
When you're sleeping  
When you're sleeping, yeah

And you share all your secrets  
And the mystery  
When you're sleeping

So you go and wonder  
Where you wander  
Lose yourself to take us higher  
And I'll be waiting  
For you when you're down

You talk so much sense  
When you're sleeping  
When you're sleeping, yeah

And you share all the secrets  
And the mystery  
When you're sleeping
