Put the Law on You

Natalie Merchant

Do I have to put the law on you baby For all the wicked things you do? Am I gonna have to put the law on you baby? That was not what I wanted to do

Do I have to put the law on you baby To try and make you come out clean for every evil deed? You're just about the lowest and the dirtiest thing I've ever seen

Did you really think you could pull it off The perfect crime, crime of the heart? Do you really think that you'll get away Do the crime and never ever pay?

Do I have to put the law out on you baby Lock you up and throw away the key For the countless counts of low down doublecross you've been about Have you no decency?

Did you really think that you could pull it off The perfect crime, crime of the heart? Did you really think that you'll get away Escape my justice until you're dying day?

Though you made it clear from the very start There was no trusting you with my foolish heart Though you maybe made it clear that didn't make it right

Do you really think you'll get away? You can't escape my justice 'til my dying day
