

Never Over You

Natalie Prass

Each day, I wait
And the pain's always followin' me
Oh I just want to with someone new
Can't you see?
And the search, no it's not over
Until you're off and lyin' next to me
Oh I just want to until I find a clue
And we're back how we used to be

Oooh, oh even if I wanted to
Oh I never ever could get over you
Oh and now there's nothing left for me to do

Can't erase the look on your face
As you turned and walked away from me
Oh I, no I did not do, what you needed me to
And that's haunting me

x4

Oooh, oh even if I wanted to
Oh I never ever could get over you
Oh and now there's nothing left for me to do
